

Board Policy 1111.2

Community Relations School Sponsored Publications

ADVERTISING

School-sponsored publications and announcements may, with certain restrictions, carry advertising and promotion materials from two sources: (1) those solicited by school organizations, and (2) those offered by non-school individuals, groups or organizations.

With respect to advertising copy offered by non-school individuals, groups or organizations, the administration may, at its discretion, accept such copy so long as publication of the copy does not infringe upon the school program, and is not inconsistent with school objectives.
